

Course: Web Technologies

Name: Ayima Ejaz Cheema

Roll No. : FA24-BCS-025(A)

Assignment # 01

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not inline `style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

ABOUT ME

I am a Computer Science student interested in technology and software development. I enjoy learning programming, web development and improving my technical skills.

EDUCATION

Qualification: Bachelor of Science in Computer Science

Matriculation: BISE BWP

SKILLS

Technical Skills

- HTML
- CSS
- Programming Basics
- Database Fundamentals

Soft Skills

- Communication
- Teamwork
- Problem Solving
- Time Management

PROJECTS

1. Basic Website Development Project
2. Programming Practice Projects
3. Database Management Project
