Product Description

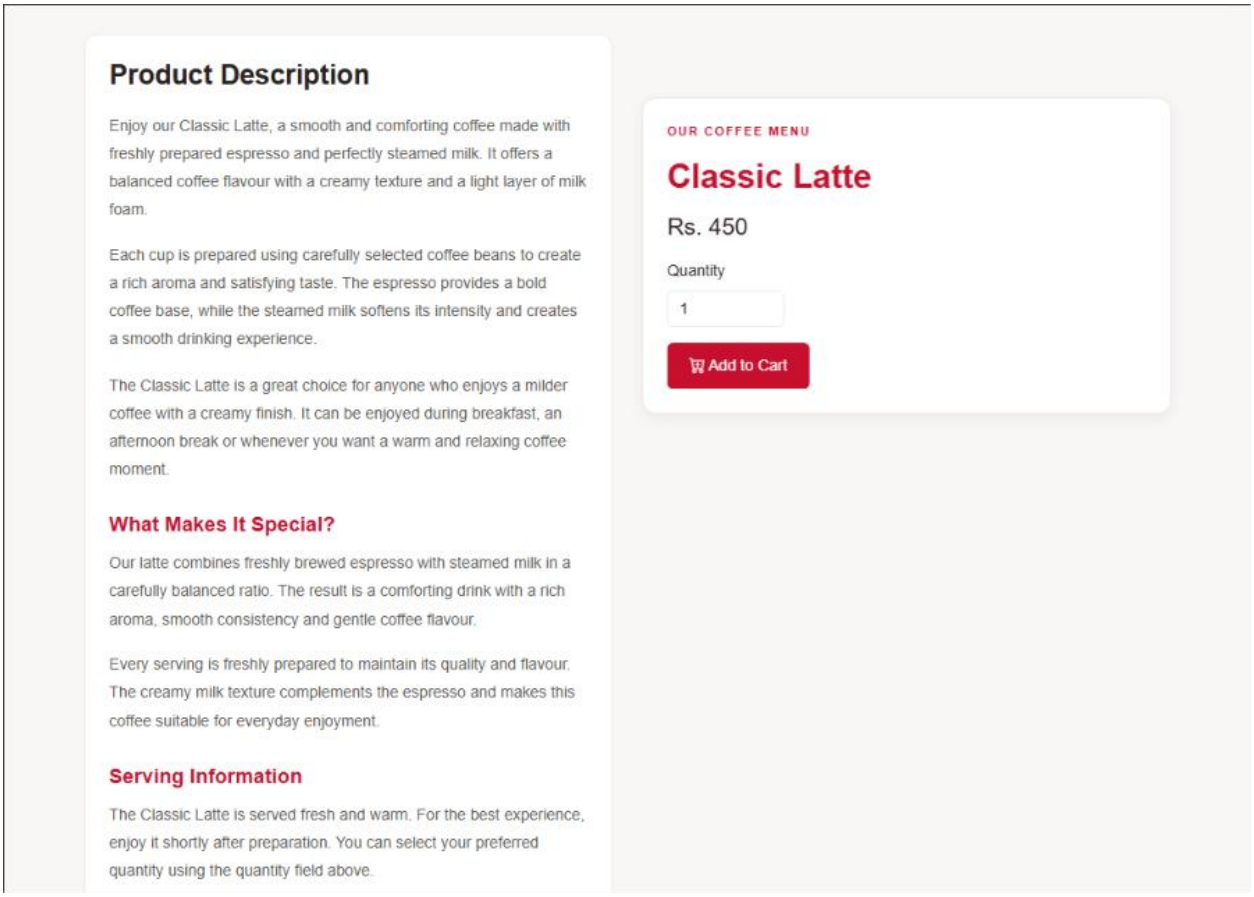

Enjoy our Classic Latte, a smooth and comforting coffee made with freshly prepared espresso and perfectly steamed milk. It offers a balanced coffee flavour with a creamy texture and a light layer of milk foam.

Each cup is prepared using carefully selected coffee beans to create a rich aroma and satisfying taste. The espresso provides a bold coffee base, while the steamed milk softens its intensity and creates a smooth drinking experience.

The Classic Latte is a great choice for anyone who enjoys a milder coffee with a creamy finish. It can be enjoyed during breakfast, an afternoon break or whenever you want a warm and relaxing coffee moment.

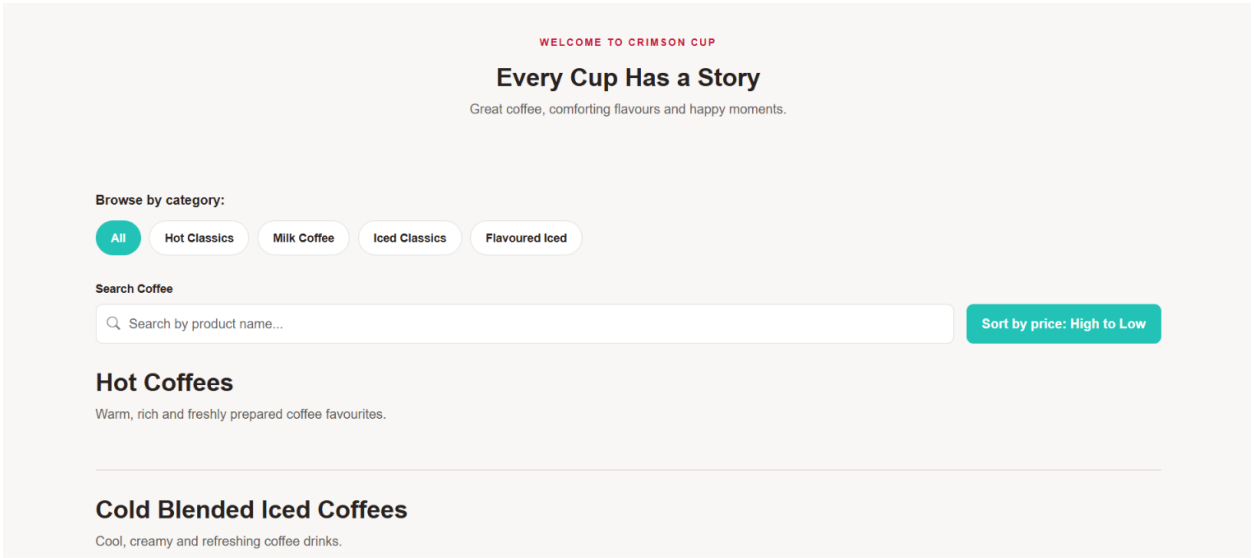

What Makes It Special?

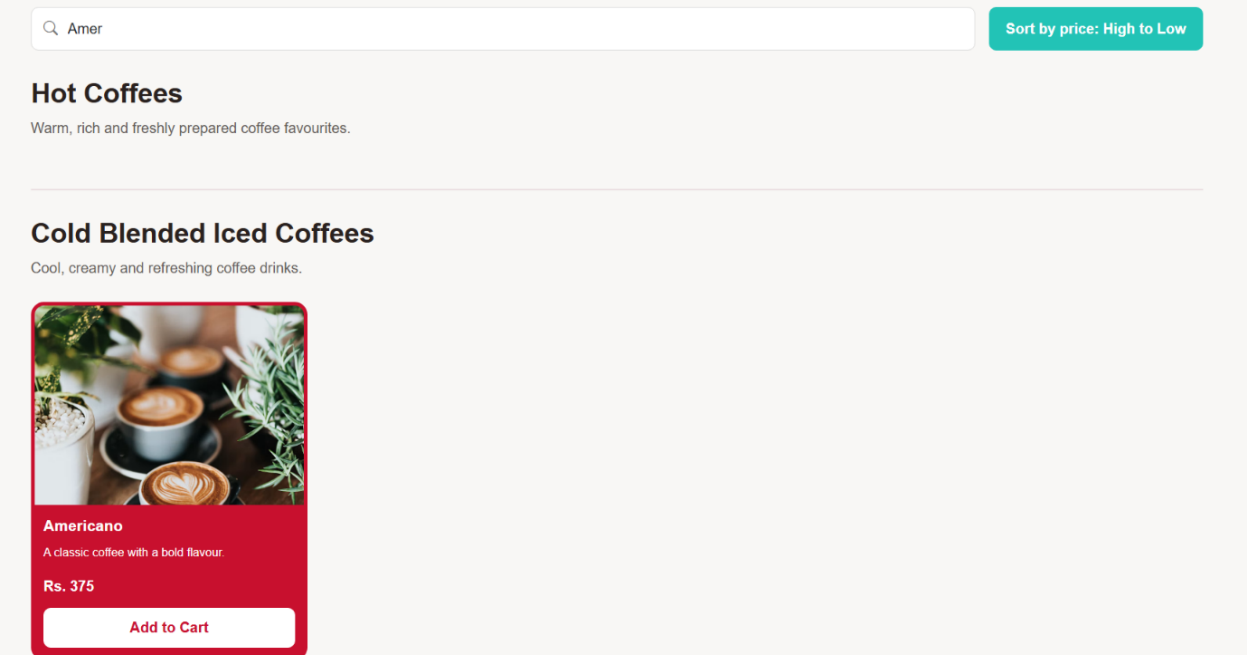

Our latte combines freshly brewed espresso with steamed milk in a carefully balanced ratio. The result is a comforting drink with a rich aroma, smooth consistency and gentle coffee flavour.
